

Meet.js Summit

Meet.js Summit is a **free** conference for JavaScript professionals from all over Poland. For the third time we are going to have a Summit that celebrates another year of local meetings that have been organized in Warsaw, Krakow, Poznań, Wrocław, Gdańsk, Łódz, Katowice and Szczecin.

This year's Meet.js Summit will be held in **September in Poznan**.

Our meetings and this conference attract a diverse community including beginners and real JavaScript ninjas. Therefore it's a great place to showcase your product or find interesting candidates to join your team, no matter if you need a junior front-end developer or a web expert.

Currently Meet.js Summit is the unique opportunity to meet over 300 front-end developers from all over Poland.

How do I get most out of Meet.js Summit?

- Improve brand awareness
Each sponsor will be seen. We'll make sure everybody knows who to thank for having a free conference. The brands and companies visible at this biggest JavaScript gathering in Poland will be remembered as the leaders in the front-end community.
- Hire new talent
Showing your offers on a conference is far more effective than posting them online. The ability to have a real conversation about the company and the job has proven to be very convincing.
- Announce your product or offer to 300 people from the front-end community.
- Find business partners or clients for your services.
